

- Bi-axial gyroscopic mixer
- Up to 35 kg
- Manual clamping
- Maximum can height: 40 cm
- Adjustable digital timer
- Rugged and reliable

The Hercules mixer (up to 35kg) represents the very best in high-speed paint mixing technology. It features a reliable and durable manual clamping system with emergency shut-off switch. The timer can be set up to 9 minutes and 45 seconds of mixing time. The Hercules includes dual speed rotation for small and large cans and is capable of handling multiple cans in one mixing cycle.

The convenient rolling shutter door with safety interlocks and the membrane keyboard are other characteristics of this durable mixer, which makes the Hercules the best choice for those who need a multi-sized gyroscopic mixer.
