99 Colours of black

One brand

Any colour, any flavour, anywhere
Fast & Fluid, The Tinting Company, has led the way in tinting colours and flavours for over 20 years. We are the partner who thinks along with you and offers a complete solution: from a manual dispenser for a small retail outlet to a large in-plant facility. Our worldwide network of offices, production facilities and sales & service partners is always ready to help you.

Flexibility

We offer the best possible solution for your situation. Besides an extensive range of dispensers, mixers and shakers that can be used in various applications, we provide additional services that help to quickly and successfully implement the tinting concept: software, training, installation, maintenance and other services.

We are your consultant, helping you to reach your commercial objectives.

Together with you, we develop a strategy that sets you apart from the competition.

99 Situations - One solution

Fast & Fluid, The Tinting Company

99 Colours of white

One solution

Quality

Our aim is perfection. Nothing is left to chance, our development-, production- and assembly processes follow set procedures. No component enters the next phase of the production process without extensive quality control. All our equipment undergoes endurance and functional testing. It goes without saying that we are there for you if you need us. Fast & Fluid is your safety net.

Reliability

The Fast & Fluid organisation stands for a reliable solution. We give you expert advice during all stages of selecting the right tinting equipment. Of course, this does not stop after delivery. Even after you have made your purchase, we support whenever you want it. Communication with our customers is extremely important to us - not only in person, but also through our website, newsletters, guides and other communication tools. These enable us to keep you up to date with all the important developments on our equipment and services.

The Tinting Lifecycle

Fast & Fluid has evolved from a machine supplier to a full-service supplier in order to satisfy the current demands of the market.

Please contact us for a tailor made offer.

We welcome any suggestions for improvements you may have. Your input helps us to adapt our products and communications to your requirements even more effectively.

Flexibility

Tailor made solutions for each unique situation.

Quality

High quality and innovative products.

Reliability

Support before - during and after the purchase.

Certified

All our equipment, machinery and products are developed and manufactured under stringent safety rules and to the highest technical specifications. Our production procedures are ISO 9001 and 14001 certified and meet CE, TÜV, BSI and other standards. The Six Sigma method of doing business (Critical to Customer) allows our company to strive for the best possible quality in products and services.
